

1. At <https://wordpress.org/plugins/buddypress-media/>

The screenshot shows the WordPress Plugin Directory page for the 'rtMedia' plugin. The page is titled 'Plugin Directory' and includes a search bar and login/register links. The plugin's name, 'rtMedia for WordPress, BuddyPress and bbPress', is prominently displayed. Below the name, there is a description: 'Add albums, photo, audio/video encoding, privacy, sharing, front-end uploads & more. All this works mobile/tablets devices.' A red button labeled 'Download Version 3.7.14' is visible. The page also features a sidebar with links to 'Extending WordPress', 'Plugins', 'Themes', 'Mobile', 'Ideas', 'Kvetch!', 'Search Plugins', 'Popular', 'Tags', 'widget (4,690)', and 'Post (2,907)'. The main content area includes a 'Description' tab, 'Installation', 'FAQ', 'Screenshots', 'Other Notes', 'Changelog', 'Stats', 'Support', 'Reviews', and 'Developers' links.

2. We need to update this : <https://rtcamp.com/rtmedia/support/>
